## WHO WE ARE

- Over 120 years of experience
- Operations in 7 countries
- 30,000 employees
- Major producer of long steel and one of the world's largest suppliers of special steel
- Largest recycler in the communities where we operate
- Publicly traded (NYSE: GGB)

# METALS RECYCLING AT-A-GLANCE

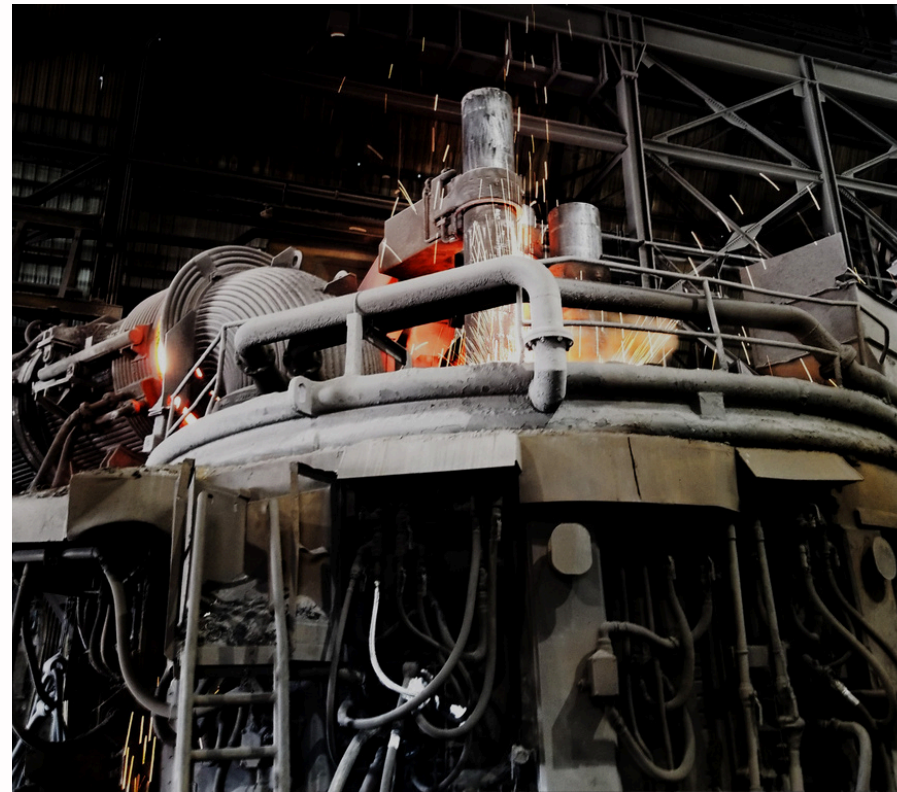

# STEEL MAKING @ GERDAU

Each year, Gerdau transforms more than 11 Million metric tons of recycled scrap metal into new, world-class steel products.

## Scrap

Scrap metal is processed into a meltable size by shearing, torching, or shredding.

## Melting

Recycled steel scrap is melted into liquid steel using high-powered electric arcs in our electric arc furnaces.

## Casting

Liquid steel is cast into a semi finished product (billets) before being rolled into finished products.

## Finished Product

Our North American facilities produce a wide range of finished products from beams, to elevator guide rails.

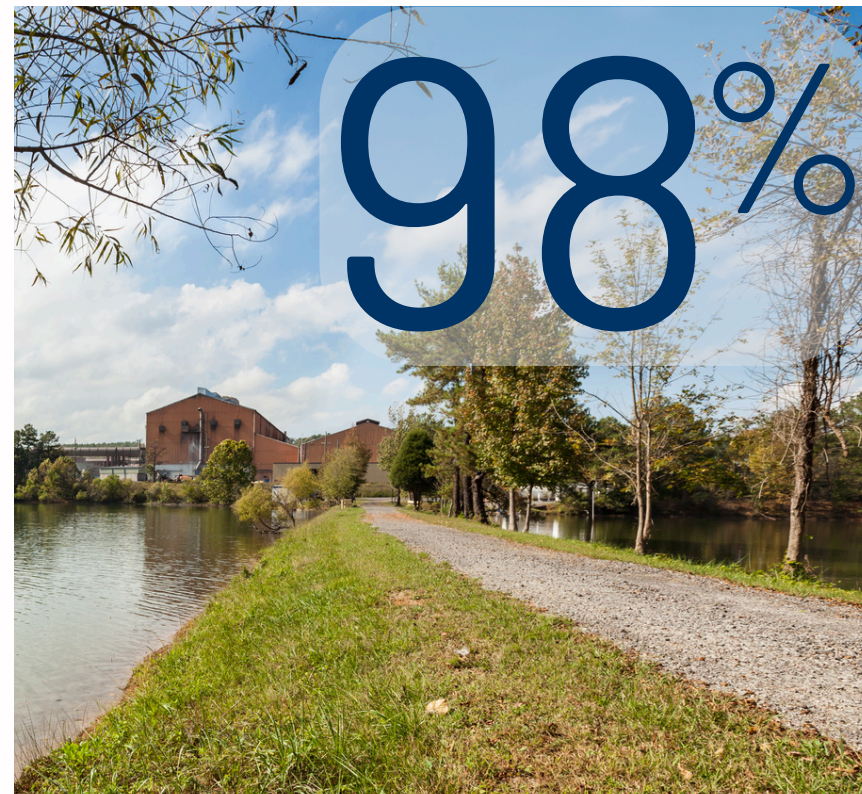

## ENVIRONMENTAL RESPONSIBILITY

Gerda integrates green practices into our operations. Through initiatives including waste reduction, sustainable purchasing, pollution prevention, energy efficiency, and alternative transportation, we strive to lessen our impact on the environment.

### Recycling

96% of the steel we produce is made from recycled scrap metals.

### Water Reuse

Gerda reuses 98% of the water used in the steel making process.

### Co-products

Gerda reuses 93% of our co-products, which are by-products of our manufacturing process, and we donate the remainder to help improve roads in areas near our operations.

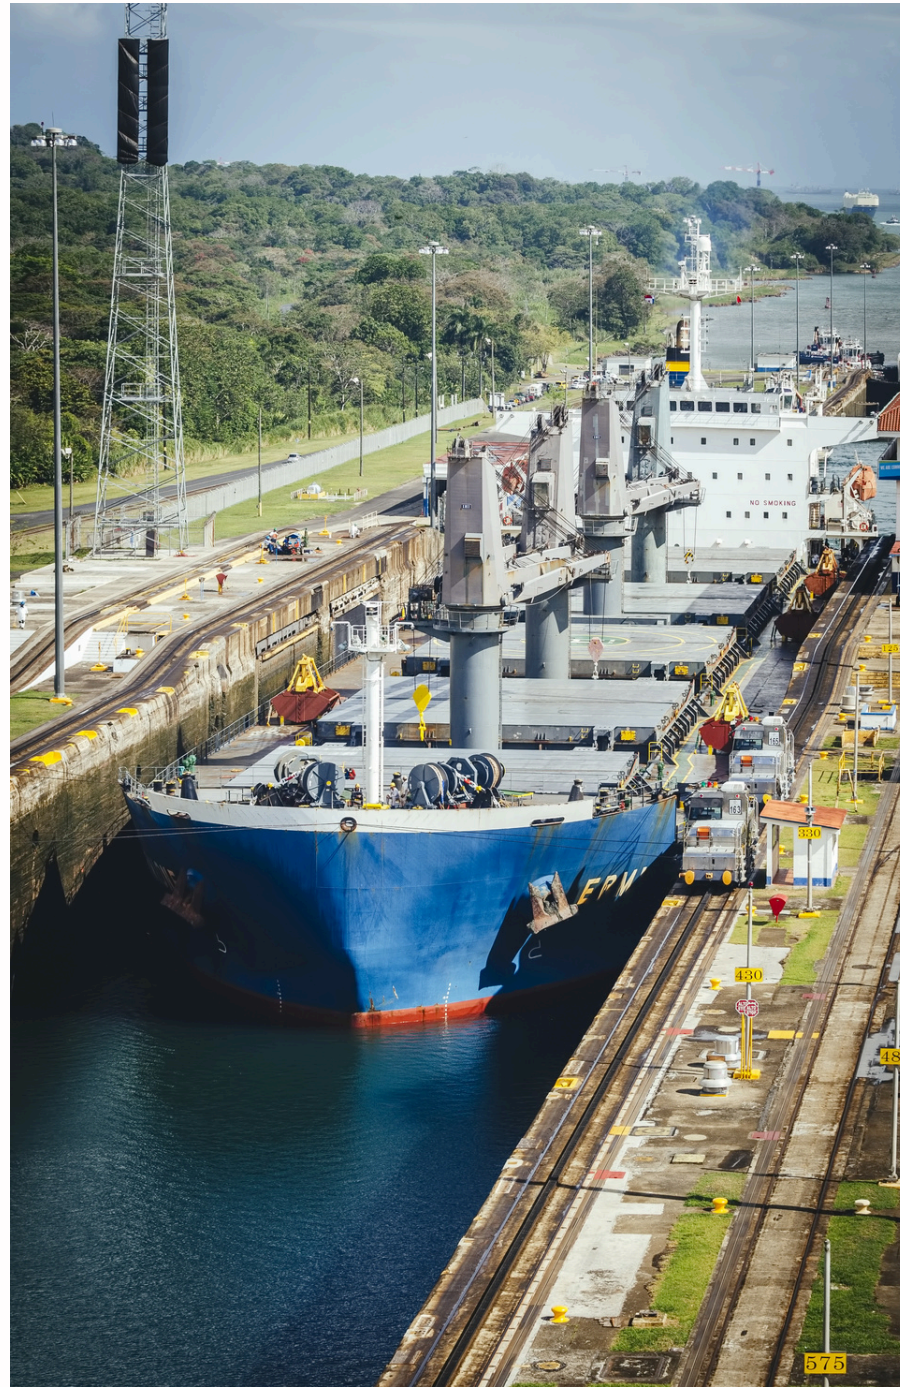

### Systems

Gerda mills have modern dust removal systems that capture particles generated in the steel production process. This filtered material is a co-product used by other industries.

# GERDAU STEEL IS ALL AROUND US. FROM AROUND THE WORLD...

Panama Canal, Panama  
Gerda Sheet Piling

Wind Turbines, Global  
Gerda Special Bar Quality

Eiffel Tower, Paris  
Gerda Guide Rails

From bridges and roads, to skyscrapers and international landmarks, Gerda steel is all around us. Turning old into new.

## ...TO RIGHT HERE IN NORTH AMERICA

Recycled Steel

Football Sculpture, FL

Recycled Steel

From some of the tallest buildings in the world to supporting the sports we love, Gerdau steel is all around us. Turning old into new.

## PRICING AND CUSTOMER SERVICE YOU CAN TRUST

Our customers rank our people as the #1 reason they do business with us. We strive to be our customers first choice when it comes to metals recycling. We value long-term partnerships and will consistently pay you a fair price for your scrap metal.

## WHAT WE BUY

We buy all Ferrous and Non-Ferrous grades of scrap metal, such as:

- #1 Heavy Melt
- Borings
- Bundles
- Busheling
- Car Bodies
- Plate & Structural
- Shredder Feed
- Steel Turnings
- Tire Wire
- Aluminum
- Brass
- Carbide
- Copper
- Electric Motors
- Inconel
- Stainless
- Titanium
- Tool Steels

If your material is not listed, chances are we still want it. Contact your Gerda representative for grades we accept by location.

## OUR COMMITMENT TO YOU

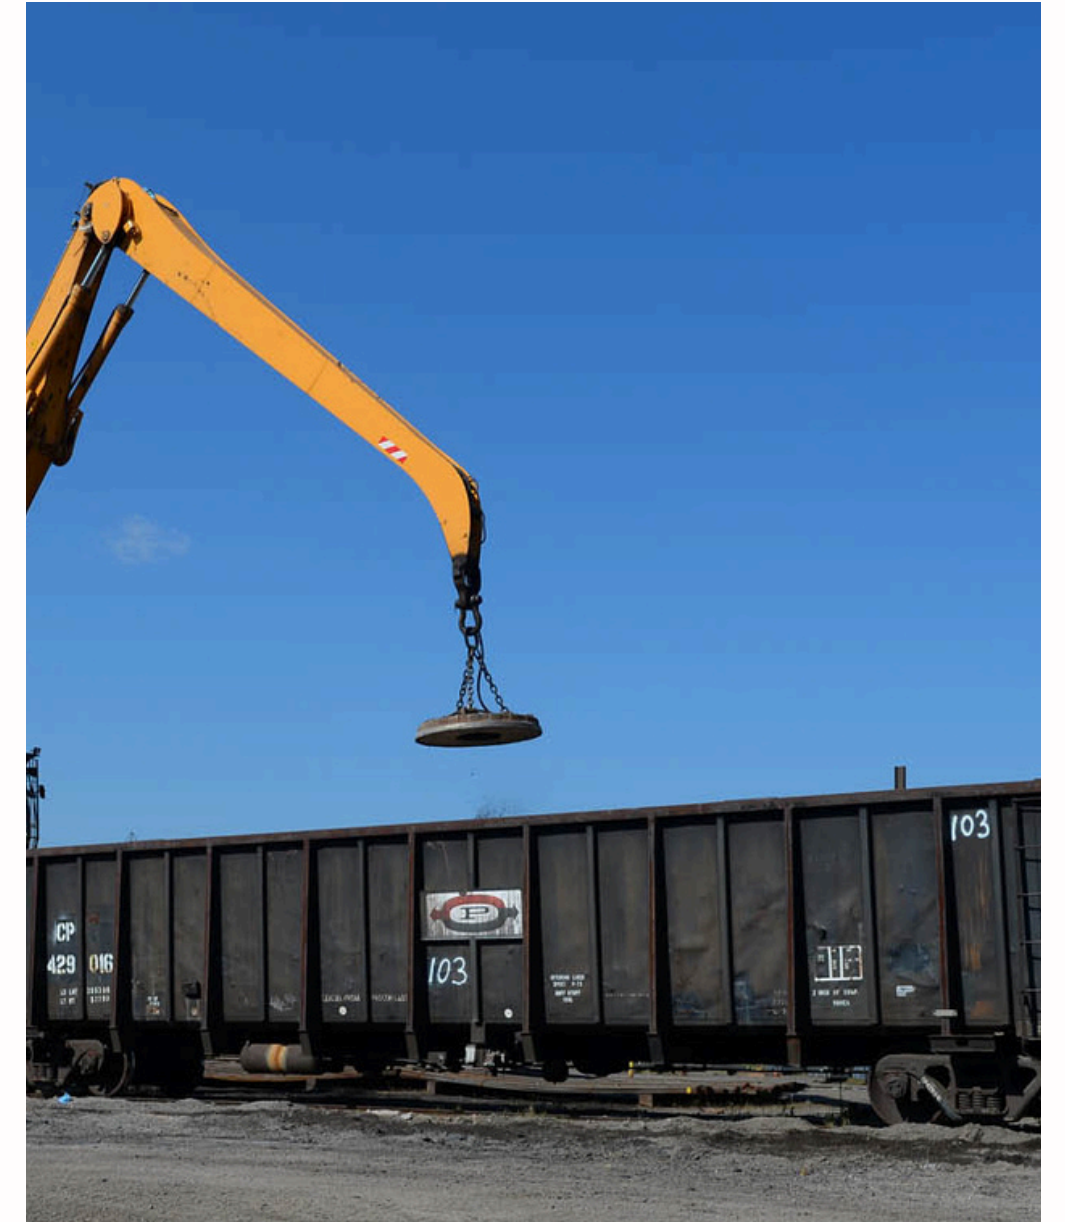

- Relationship and trust driven approach to business
- Transparent pricing with flexible options
- Detailed reporting and and auditable shipment details
- We are an end user – full destruction of material guaranteed
- From logistics to automatic payment – we take care of it all

## WE'RE HERE TO HELP

We can arrange transportation via rail, truckload, or even by ocean. We also offer bin drop off and pick up service for various loads and sizes. Our logistics solutions are custom-tailored to your needs.

### FROM BIN SERVICE

All you have to do is let us know when it's full – we'll take care of the rest so that you can focus on your business.

### TO EVERYTHING ELSE

From trucking to rail, and even mobile services, our team of logistics experts are there to support you.

## MANAGE YOUR SCRAP WITH OUR SCRAP VENDOR SYSTEM (SVS)

You'll have transparent and detailed reporting at your finger tips:

- View scrap contracts
- Access scale tickets
- Reconcile shipments details
- Track your payments
