

METALS RECYCLING MADE EASY

WHO WE ARE

- 119 years of experience
- Operations in 10 countries
- 30,000 employees
- Major producer of long steel and one of the world's largest suppliers of special steel
- Largest recycler in the communities where we operate
- Publicly traded (NYSE GGB)

WHERE WE ARE

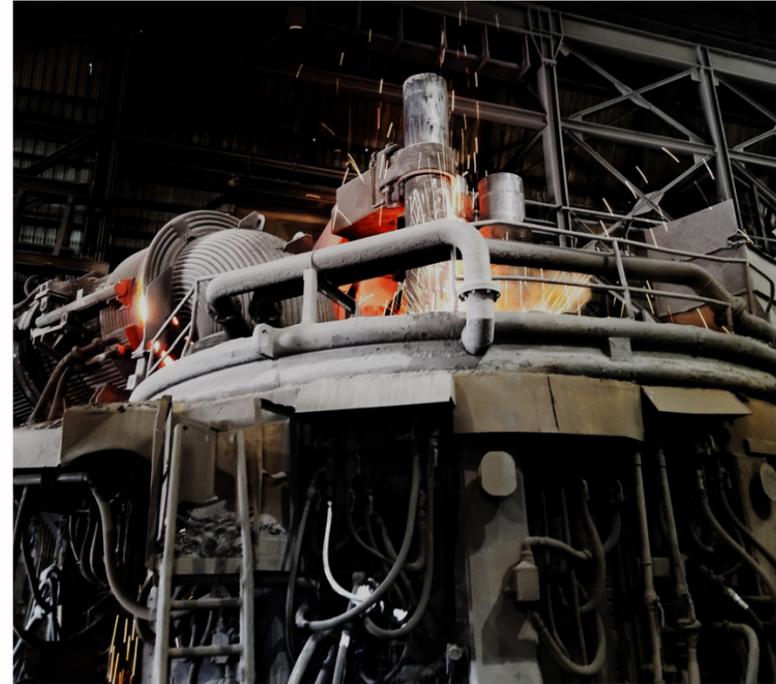

STEEL MAKING @ GERDAU

Scrap

Scrap metal is processed into a meltable size by shearing, torching, or shredding.

Melting

Recycled steel scrap is melted into liquid steel using high-powered electric arcs in our electric arc furnaces.

Casting

Liquid steel is cast into a semi finished product (billets) before being rolled into finished products.

Finished Product

Our North American facilities produce a wide range of finished products from beams, to elevator guide rails.

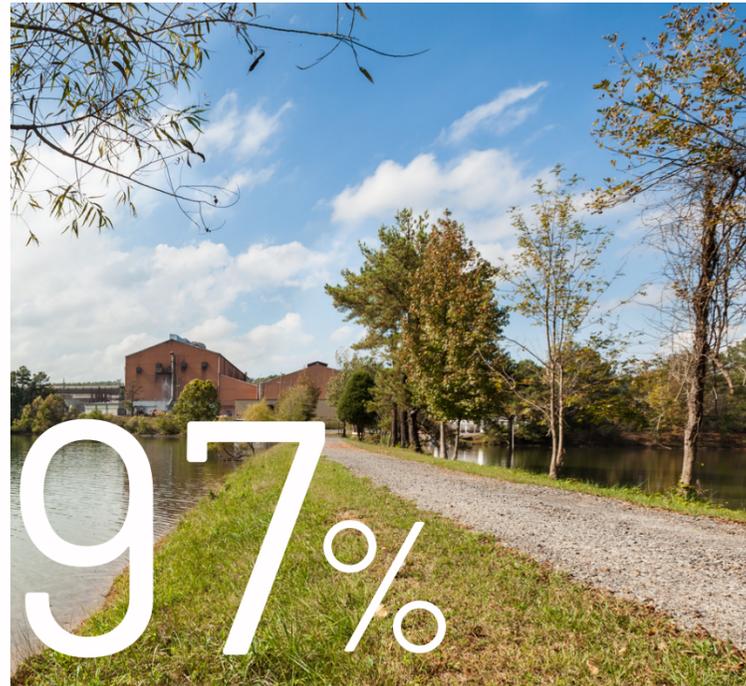

ENVIRONMENTAL RESPONSIBILITY

Recycling

98% of the steel we produce is made from recycled scrap metals.

Water Reuse

Gerdau reuses 97% of the water used in the steel making process.

Co-products

In 2017, Gerdau reused 73% of its co-products globally, and donated remaining co-products to help improve roads in areas near our operations.

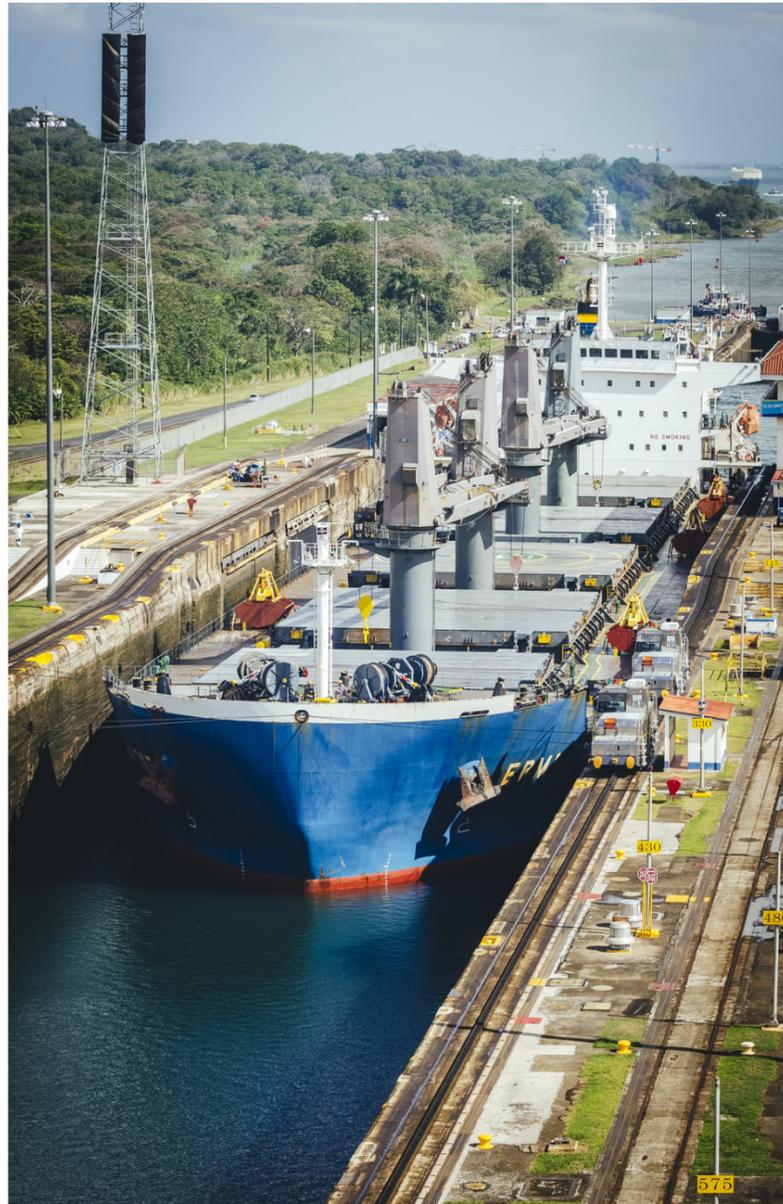

Systems

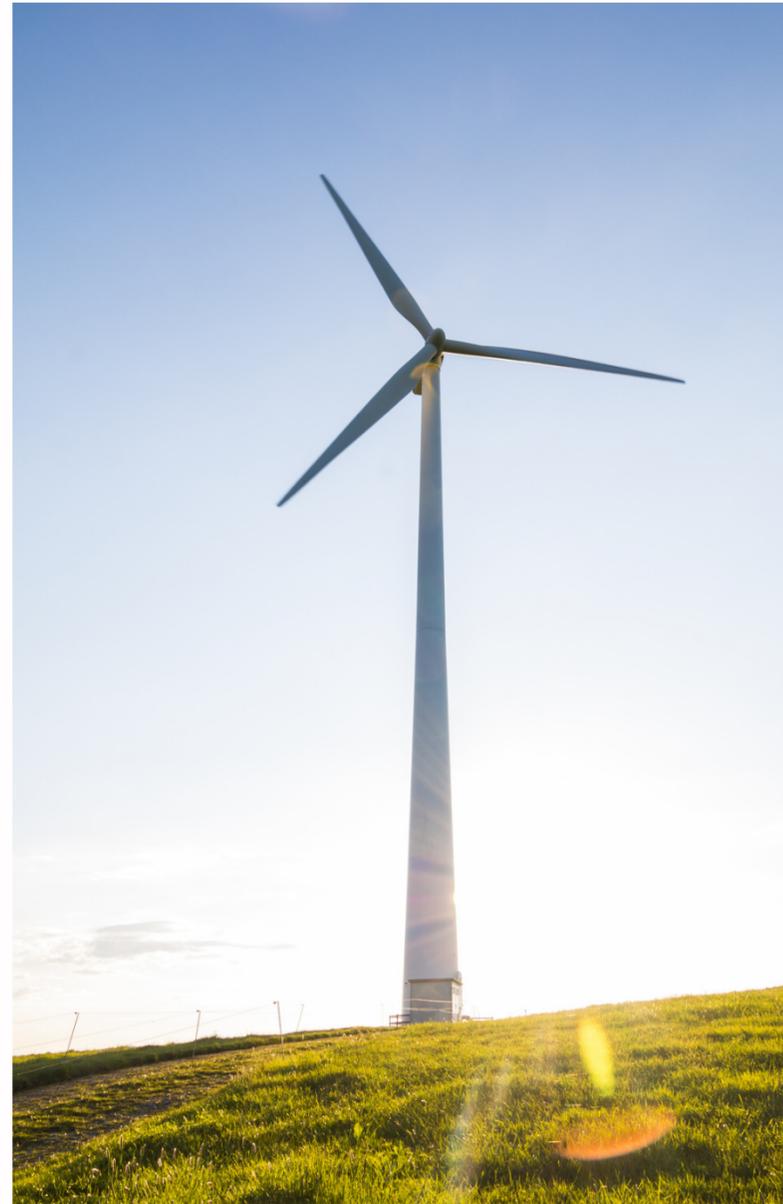

Gerdau mills have modern dust removal systems that capture particles generated in the steel production process. This filtered material is a co-product used by other industries.

GERDAU STEEL IS ALL AROUND US. FROM AROUND THE WORLD...

Panama Canal, Panama
Gerda Sheet Piling

Wind Turbines, Global
Gerda Special Bar Quality

Eiffel Tower, Paris
Gerda Guide Rails

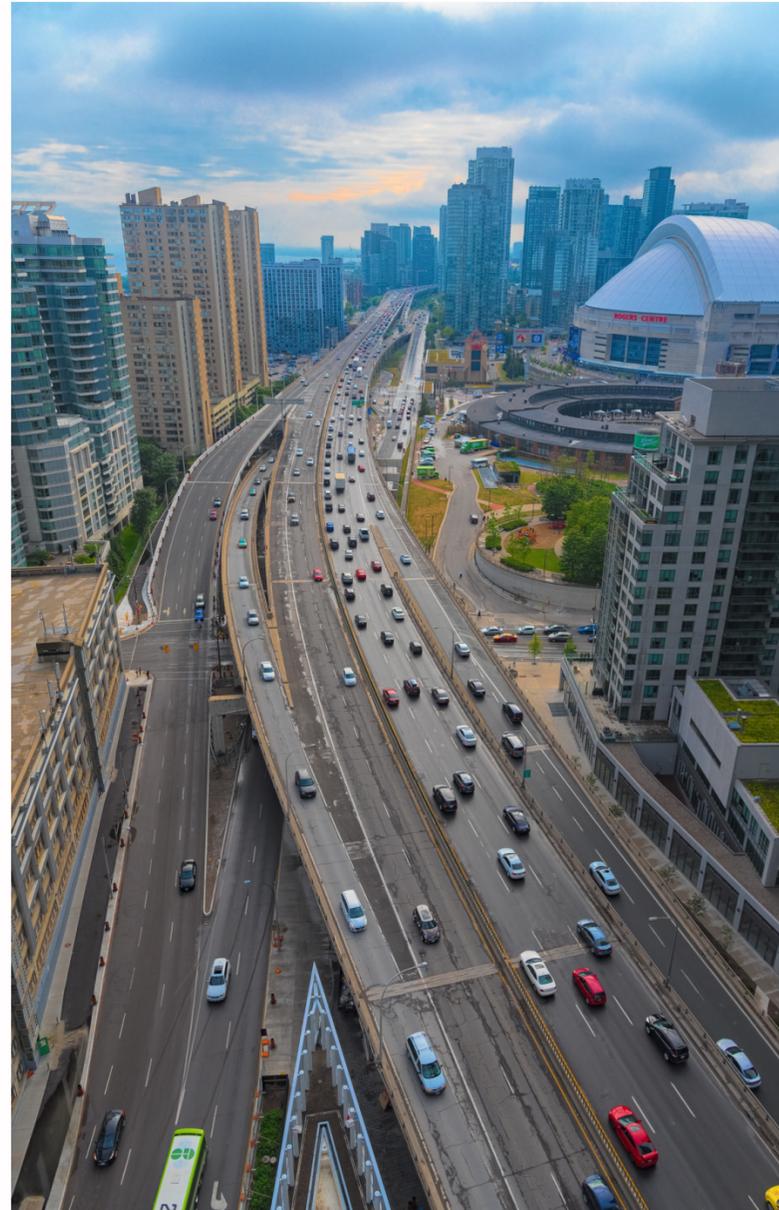

From bridges and roads, to skyscrapers and international landmarks, Gerda steel is all around us. Turning old into new.

...TO RIGHT HERE IN NORTH AMERICA

One World Trade Center, NY

Football Sculpture, FL
Recycled Steel

From some of the tallest buildings in the world to supporting the sports we love, Gerdau steel is all around us. Turning old into new.

METALS RECYCLING

Our customers rank our people as the #1 reason they do business with us. We strive to be our customers first choice when it comes to metals recycling. We value long-term partnerships and will consistently pay you a fair price for your scrap metal.

WHAT WE BUY

We buy all Ferrous and Non-Ferrous grades of scrap metal, such as:

- #1 Heavy Melt
- Borings
- Bundles
- Busheling
- Car Bodies
- Plate & Structural
- Shredder Feed
- Steel Turnings
- Tire Wire
- Aluminum
- Brass
- Carbide
- Copper
- Electric Motors
- Inconel
- Stainless
- Titanium
- Tool Steels

If your material is not listed, chances are we still want it. Contact your Gerdau representative for grades we accept by location.

OUR COMMITMENT TO YOU

- Relationship and trust driven approach to business
- Transparent pricing with flexible options
- Detailed reporting and auditable shipment details
- We are an end user – full destruction of material guaranteed
- From logistics to automatic payment – we take care of it all

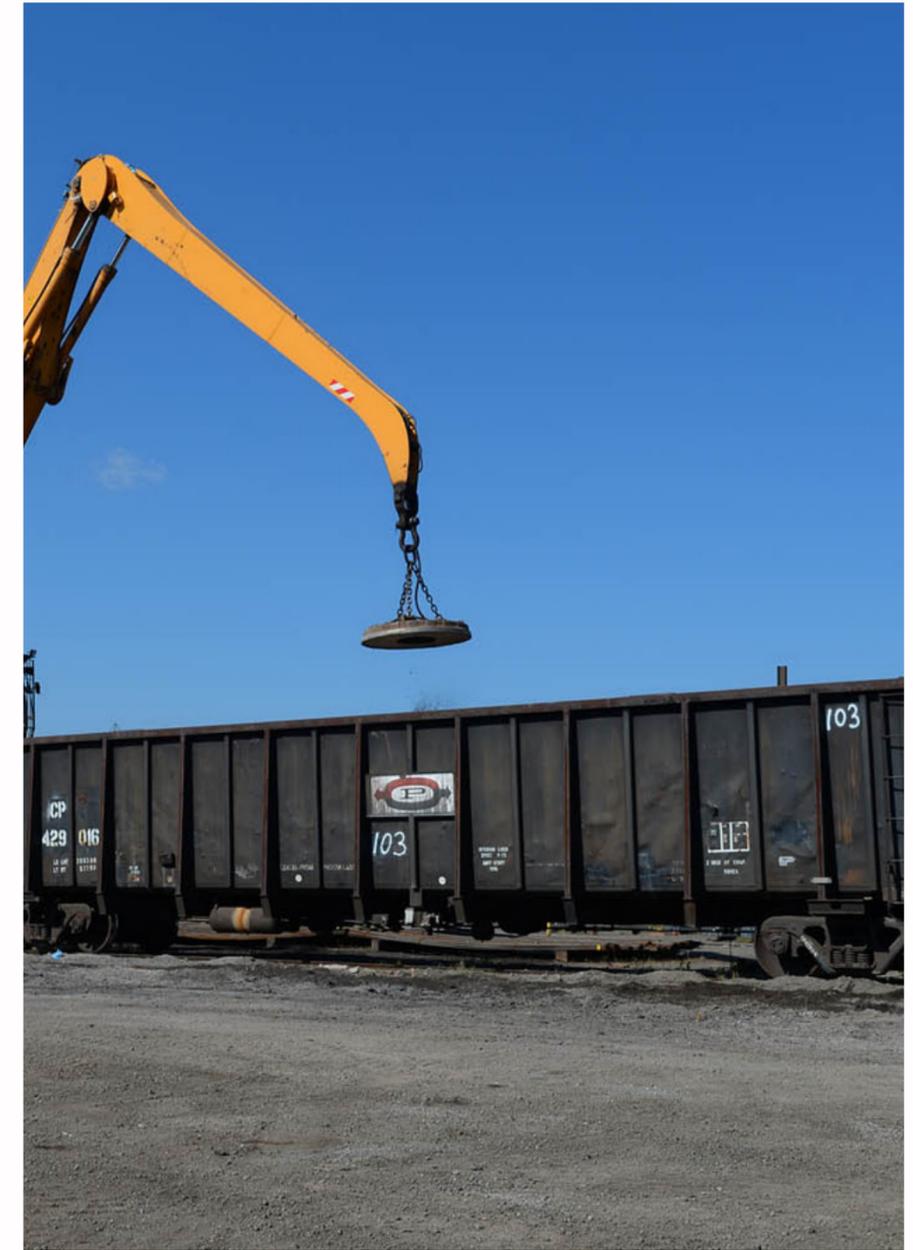

WE'RE HERE TO HELP

We can arrange transportation via rail, truckload, or even by ocean. We also offer bin drop off and pick up service for various loads and sizes. Our logistics solutions are custom-tailored to your needs.

FROM BIN SERVICE

All you have to do is let us know when it's full - we'll take care of the rest so that you can focus on your business.

TO EVERYTHING ELSE

From trucking to rail, and even mobile services, our team of logistics experts are there to support you.

MANAGE YOUR SCRAP WITH OUR SUPPLIER PORTAL

You'll have transparent and detailed reporting at your finger tips:

- View scrap contracts
- Access scale tickets
- Reconcile shipment details
- Track your payments
